## TODAY'S SWIMMING POOLS REFLECT A REAL LIFESTYLE.

Swimming pools are perfect places for coming together and relaxing. In exactly the same way as architecture and interior design they follow the latest trends and evolve in line with customers' aspirations, whether they be for residential or public use. Over the past decade, the pool and spa sector has always been a step ahead of these new demands.

This Inspirations Guide reviews the current trends and developments in the world of pools and their surrounds. We have decided to present it in the form of five concepts - Cocoon family, Trendy, Sports, Eco-friendly and Connected - illustrating the next generation of pools and pool equipment currently being designed and developed by sector professionals.

Immerse yourself in this Inspirations Guide – and come and discover the pool and spa trends of the years to come at:

**Piscine Global Europe**  
from 13 to 16 November 2018 at Lyon Eurexpo

**1. Laghetto® pool by AstralPool: Playa Collection** - a contemporary mini indoor or outdoor pool, but also a stylish modular wellness area. **2. Mondial Piscine** - a concrete pool with a pale grey reinforced PVC lining, in a rectangular shape and a small format (7.20 m x 4 m).

THE IDEAL POOL  
ACCORDING TO...

**LAURE MANAUDOU**

*Triple Olympic medallist*

*"My ideal pool would be designed with several levels: a small deck to give children a safe place to play, and an area for grown-ups to swim for exercise. For me, combining the relaxation and sport aspects is the best way to create a pool you can really enjoy as a family."*

# THE COCOON FAMILY POOL

A pool is the perfect place to bring the whole family together for enjoyment and relaxation. The youngsters can splash around and play in the water, while the grown-ups unwind on poolside loungers... As well as enabling families to bond while having fun, today's pools are also designed to keep all their members safe.

**1. Atriblue - Open AERO:** this slatted cover can be controlled from a smartphone, creating the perfect blend of safety, style and convenience. It also has an easy-to-use, built-in customisable ambient lighting system. **2. Ocean Dreams - Wifi Touch Panel:** a touch-sensitive panel for controlling your spa, setting the water temperature and filtration cycles, and managing your playlist. **3. PoolStar - Douche Bellagio:** a stylish shower with dual water supply, aluminium structure, subtle glitter-effect finish, stainless steel mixer tap and foot rinser. **4. AstralPool - H7 DUO APP:** smartphone-controlled electric robot cleaner. Can be programmed with a choice of cycles, configured according to the pool shape and receive notifications.

# THE TRENDY POOL

2

With pool design becoming affordable and accessible for more customers than ever before, pools and their surrounds are embracing the latest trends in colours, materials, shapes, linings, etc. Pools are all the rage!

3

© Aquavia Spa

**1. AstralPool - Stainless steel spa:** custom-designed in AISI-316 grade stainless steel, 100% recyclable. Stylish, contemporary finish and highest-quality workmanship. **2. PoolStar - Poolex Jetline Platinum:** a highly stylish heat pump that will enhance any poolside, incorporating Full Inverter technology. **3. Aquavia Spa - Origami Spa:** a state-of-the art, sophisticated spa inspired by the Japanese art of paper folding. **4. Aquilus - Art'n Swim concept:** From art to pool. Fruit of the collaboration between Aquilus and two artists: Benoît and Mathias Souverbie. Swimming pool incorporating works of art (concrete sculpture and Corten steel).

## THE IDEAL POOL ACCORDING TO...

### MHNA STUDIO

Marc Hertrich & Nicolas Adnet  
interior architects and designers

*"Our ideal pool is composed of pools that could be interlinked, and that have different purposes:*

- One providing a very long length for swimming, in the form of a lap pool - which always looks beautiful - or just a large pool if space permits;*
- One for socialising, in the form of a lounge area featuring seats of various shapes and sizes built into the pool and made of the same materials;*
- And a very shallow one, enabling you to stretch out in a few centimetres of water or set out a few deckchairs or loungers for sunbathing."*

## THE IDEAL POOL ACCORDING TO...

### FRÉDÉRIC MICHALAK

*Former international rugby player, professional on the Lyon LOU team*

*"As a top-level player I place a great deal of importance on training, but also on relaxation. It's vital to have a pool equipped with a good hydrotherapy system, such as a counter-current area and cold areas for recovering. I like to swim in a pool that is long enough to do laps, but I also love to unwind in a pool fitted with a spa, a steam room or a hot tub, for example. A pool where you can both exercise and relax, as a family or with friends. A cosy pool."*

# SPORT POOL

A pool is a place for relaxation, but also just as much a place where anyone can enjoy a sporting activity. From swimming to aqua fitness to wellness, pools offer a wide and ever-growing range of activities and opportunities for putting the expression *mens sana in corpore sano* into practice.

**1. Mondial Piscine - Chron'Ô:** a sport and wellness pool featuring a liner printed with turning marks to help maintain a constant swimming speed. 12.5 m long x 3 m wide and 1.5 m deep over its entire length. **2. Ocean Dreams - Creta SwimSpa:** swim spa equipped with 48 jets, 4 turbo swim jets and an innovative standing massage system. **3. Aquavia Spa - Duo:** with two separate spaces: a Swim Zone and a Spa Zone. **4. Orsteel Light** - Orphie submersible very high power floodlight for illuminating pools and ponds or for use in a marine environment. High luminous flux ensures excellent underwater light diffusion. Excellent substitute for halogen spotlights in swimming pools.

# ECO-FRIENDLY POOL

With a smaller ecological footprint, enhanced energy efficiency, healthier and more sustainable materials and harmonious landscaping, today's pools are in tune with their environment.

© Sorodist

© Davey

**1. Aquilus - XS 'intimist' pool concept:** XS is one of the 'intimist' plunge pool formats designed by Aquilus, offering an alternative approach to outdoor design: "a small pool for great times". Four 'intimist' concepts are available: XS, Quadra, Cub'o, and Bora. **2. Sorodist - Heat Cover:** an innovative liquid that forms a barrier on the water surface to reduce evaporation and maintain the pool temperature. **3. Davey - Silensor VSD pump with Bluetooth:** a pool pump that can be controlled remotely using a smartphone, via Bluetooth. **4. Aquilus - M Water:** an innovative concept halfway between a pool and spa for exercise, leisure, health and relaxation. 9.5 m<sup>2</sup> – counter-current swimming – hot tub – massage nozzles – sliding deck.

THE IDEAL POOL  
ACCORDING TO...

**JEAN MUS**

*Landscape designer*

*"When a garden welcomes a swimming pool you get a little glimpse of paradise. The details, the element of surprise, the harmonious shapes and colours draw us into the company of that inescapable, loyal, whimsical, noisy – or peaceful – friend we call a swimming pool. All the idyllic places of the world are ready to receive one – for our pure delight!"*

## THE IDEAL POOL ACCORDING TO... JADE LEMAÎTRE

CEO and co-founder of Hease Robotics

*"My ideal pool? It has to be smart, of course! So that I can make the most of it without having to worry about all those little everyday hassles. I want to have the water temperature, chlorine level and pH at my fingertips, and be able to let my mind wander during meetings... Start up my little cleaning robot and tell it which areas of the bottom and walls to focus on. Get a reminder when it's time to change a liner or carry out pump maintenance... Be able to send a diagnosis straight to my pool expert from my favourite app! In short, my ideal pool will send me little messages via my phone so that I can enjoy it with complete peace of mind!"*

# THE 4.0 POOL

Connected and automated, the '4.0' pool is packed with high value-added features. New technologies are opening up endless possibilities, with cutting-edge functions such as programming and controlling equipment remotely, incorporating 3D effects, etc.

**1/2. Zodiac** - RV 5480 iQ connected robot cleaner / Z400 connected heat pump: this robot cleaner and heat pump can be programmed and controlled remotely over an ordinary WiFi connection using a smartphone and the iAquaLink app. **3. Syclope Électronique** - HYDRO TOUCH controllers: a new generation of equipment for controlling water settings easily and accurately, with a touch screen displaying all the key information. **4. APF** - APF Connect-Cover Control app: for automatically opening and closing pool covers using a smartphone as a remote control, within a 15 m radius. **5. Hayward**® - AquaRite® + salt chlorination: for regulating and treating pools remotely. A single box with a touch screen to control all the equipment (filter pumps, heat pumps, lighting, etc.). Salt treatment for clean water and unrivalled bathing comfort.
