THE LEADING SWIMMING POOL AND WELLNESS EVENTS

## THE SECOND EDITION OF PISCINE CONNECT THE DIGITAL POOL & WELLNESS EVENT

The October 2020 edition was so successful that, at the demand of pool and wellness professionals and jointly with the French Pool Professionals Federation (the FFP) **GL Events Exhibitions is running Piscine Connect again on Wednesday 13th and Thursday 14th October, 2021.**

The objective is to enable professionals to discover all the innovations on the market to facilitate comparisons and discussions.

Piscine Connect is the way the pool community keeps up with trends, changes and innovations in the years in which the bi-annual physical Piscine Global Europe Show is not held. Serving the Pool & Spa sector, Piscine Connect provides an intermediate solution and alternative way of meeting up to the live Show which will be held from 15th November to 18th November, 2022.

Over and above making it possible for exhibiting suppliers to respect their sales launch schedules, this digital event, accessed via an application and a Web platform also targets a wider public, sometimes more distant geographically or less "mobile". In this way, manufacturers and buyers from around the world can network, chat, set up business video meetings and grow their businesses.
